

UNA-Edge™ Metal Edge System

UNA-Edge™ GS
GravelStop System

UNA-Edge™ DE
DripEdge System

UNA-Edge™ CO
Coping System

Features

- ANSI/SPRI ES-1 Code Compliant up to 90 mph and 250' high buildings
- Three systems available: GravelStop; DripEdge; and Coping
- Shipped as a full system: cleats, splices and fasteners included
- Available in aluminum or galvanized (G-90) steel
- Available in over 30 standard colors
- Simple and straightforward architectural sheet metal detailing, with no spring clips or extruded components, resulting in easy to make field miters for drip edge and gravelstop
- FM 4435 tested
- Eligible for inclusion in Red Shield™ warranty roof with coverage of up to 20 years
- Prefabricated factory miter corners available for coping and gravelstop
- Installation and CAD details plus three part CSI specifications online

Benefits

- Delivers the assurance and security inherent in a Firestone-tested edge metal system
- Assured code compliance for your edge metal systems
- Simple design helps save installation time and labor costs
- Single-source supplier for all necessary components, from systems to fasteners to warranty
