## **Firestone UltraPly™ TPO Accessories**

**PRODUCTS DESIGNED TO TAKE YOUR ULTRAPLY TPO ROOF EVEN**

# Firestone UltraPly TPO Accessories

**We've got you completely covered –  
and then some.**

Greater energy efficiency, easy installation and lower system costs are just a few of the qualities that have made thermoplastic polyolefin (TPO) membranes the fastest-growing sustainable commercial roofing product.

At Firestone Building Products, we're proud to provide our customers with a line of UltraPly TPO membranes and accessories that are backed by a history of excellence and the exclusive Red Shield™ Warranty. Because we know your job requires a complete solution that goes beyond the products you need – it's our job to supply just that.

# Firestone UltraPly TPO Accessories

## Adhesives

### UltraPly Bonding Adhesive

- Specifically designed to bond UltraPly TPO membrane to wood, metal, masonry and other substrates

## LVOC Adhesives

### Water Based Bonding Adhesive P

- Water-based alternative to traditional solvent-based adhesives
- Pink indicator

### Single-Ply LVOC Bonding Adhesive

- Can be applied in cold weather, unlike water-based adhesives

### Single-Ply LVOC Bonding Adhesive 1168

- Formulated for special low-VOC applications
- Complies with SCAQMD and LEED® requirements

### UltraPly TPO XR Bonding Adhesive

- Specifically designed for use with UltraPly TPO XR (fleece-backed) membrane
- Labor-saving, one-side-only application
- Adheres with most standard application methods

### XR Stick Adhesive

- No adhesive fumes
- Fast cure times

## Sealants

### UltraPly TPO General Purpose Sealant

- High-quality sealant with excellent adhesion to a variety of surfaces
- Can be used as a fastener sealer, termination bar caulk and/or TPO cut-edge treatment

### UltraPly TPO Cut-Edge Sealant

- Used to seal cut edges of membrane where polyester reinforcement is exposed

## QuickSeam™ Accessories

### UltraPly TPO QuickSeam 5.5" & 9.5" Flashing

- Can be used as cover strips over intermediate mechanical attachment, or at metal edge

### UltraPly Quickseam RMA Strip

- Nonpenetrating intermediate attachment for roof perimeters
- Allows the use of membranes up to 12' for perimeter installations

### UltraPly Quickseam RPF Strip

- Nonpenetrating membrane attachment for securement at angle changes

### UltraPly Quickseam Pipe Boots

- Covers pipes ranging from 1" to 6" diameter
- No heat welding required
- Uses pre-applied QuickSeam pressure-sensitive tape technology

### QuickSeam Safety Strip

- QuickSeam Tape technology allows for compatibility with UltraPly TPO, RubberGard™ EPDM, or RubberGard™ EcoWhite™ EPDM roofing systems
- QuickSeam Tape provides a weld-free application for UltraPly TPO

### SinglePly QuickPrime™ Primer

- Designed to clean and prime UltraPly TPO to receive all QuickSeam accessories
- Also available in low-VOC version – UltraPly TPO Single Ply LVOC Primer

## Membranes

### UltraPly TPO Unsupported Flashing

- Nonreinforced TPO allows for field fabrication of special details

### UltraPly TPO 18" Supported Flashing

- Specifically designed for curbs and parapet walls
- Single encapsulated edge eliminates need for cut-edge sealant
- Available in 50' rolls

### UltraPly TPO 8" Cover Strips

- Constructed of 60-mil thick UltraPly TPO
- 50' length, precut and ready to roll

## Preformed Accessories

**UltraPly TPO Reinforced Split Pipe Boots** 

- Available in three sizes
- Split design to fit pipe penetrations with limited or no access from above

**UltraPly TPO Pipe Boots** 

- Universal Boot fits 1" to 6" pipes
- Large Boot fits 6" to 8" pipes

**UltraPly TPO Reinforced Curb Corners**

- Fabricated from 45-mil thick UltraPly TPO
- Available in six sizes to accommodate various curb dimensions

**UltraPly TPO Inside/Outside Corners**

- Specifically designed for flashing either inside or outside corners on curbs, parapets and scuppers

**UltraPly TPO T-Joint Covers**

- Designed to cover and seal T-Joints formed at seam intersections

## Other Accessories

**UltraPly TPO White Walkway Pad**

- Fully heat-weldable TPO composition
- Reflective white surface reduces thermal expansion, providing a smooth walking surface

**X-Tred™ Walkway Pad**

- Enables self-draining and minimizes ponding water
- Can be installed on TPO, PVC, EPDM and modified bitumen roofing systems
- Does not require additional heat welding equipment for installation

**UltraPly TPO Coated Metal** 

- Nonreinforced UltraPly TPO factory laminated to 24-gauge hot-dipped galvanized steel
- For use as a flashing component for UltraPly TPO systems
- 4' x 10' sheets

# The InvisiWeld™ Fastening System

Using advanced technology, the InvisiWeld Fastening System mechanically installs UltraPly TPO roofs – without fasteners penetrating the roofing membrane. So you get labor and material savings, more wind uplift resistance and a more balanced load distribution across the whole roof.

## THE INVISIWELD FASTENING SYSTEM:

- **Bonds** plates to the underside of the membrane via induction heating
- **Welds** UltraPly TPO membrane to TPO-coated InvisiWeld plate in seconds
- **Requires** 25–50% fewer fasteners compared to conventional mechanically fastened TPO systems

## Custom

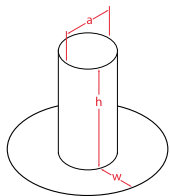

No two roofs are the same. For roofing projects with unique designs or elements, take advantage of customized UltraPly TPO accessories from Firestone. They offer the same money-saving benefits of our standard UltraPly TPO products, plus the confidence of recommending and installing specialized accessories from a company you trust.

### Pipe Boots:

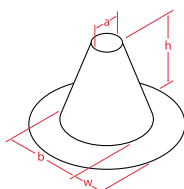

- Round, square or conical shaped
- Available with closed or split design

### Custom Curb Flashing:

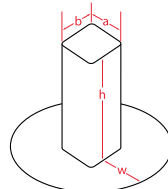

- Allows for square or rectangular configurations

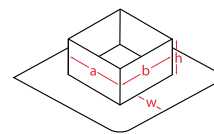

Pipe Boot

Conical Boot

Square Tube Boot

Curb Flashing

All Firestone custom accessories come with factory-formed welds and are fabricated from proven UltraPly TPO reinforced membrane.
