

Strategic Building Products presents:

New Elevate SBS SA Demo Training

Josh Wallwork from SBP and Kevin Vallente from Elevate will demonstrate new SA Base and Cap sheet.

Self-adhered SBS roofing systems expand Elevate's low-slope portfolio with a flame-free asphalt solution designed to help support safer jobsite conditions, faster installation, and greater installation confidence on projects where jobsite control and building occupancy are critical. These systems deliver the durability and redundancy of SBS modified bitumen roofing, while simplifying installation and reducing risk for today's commercial environments.

WHEN

Tuesday
September 22, 2026
10:00 AM

WHERE
