

FUNDAMENTAL DECKING & WATERPROOFING APPLICATOR TRAINING (1 DAY)

Course Description

This interactive one-day training class is intended for experienced waterproofing applicators who are interested in learning more about Gaco Western's polyurethane waterproof products.

- Learn the advantages of GacoPedestrianDeck, GacoAutoDeck, GacoQRSDeck, GacoFlex U61, GacoFlex U91 and GacoFlex LM60. The best waterproofing products in the industry.
- Gain hands-on training and tips for proper application to help ensure customer satisfaction.

This class is ONE PART OF THREE REQUIREMENTS for achieving Gaco Western Qualified Applicator status, which allows a contractor to offer labor and material warranties. For complete details, reference "How to become a Gaco Western Qualified Applicator," available on GacoUniversity.com.

DIFFERENTIATE YOURSELF!

Let us show you how to increase profits with polyurethane waterproof coatings that can be applied over most existing materials and surfaces by roller, squeegee or sprayer. No hot kettles of asphalt and no fumes. Most importantly, no seams!

As an added bonus, one of our solvent-free polyurethanes, LM60, carries the NSF International approval for potable water; water runoff from the roof is safe for people, pets, wildlife and plants.

Gain an advantage over your competition and increase your bottom line!
