AGENDA

7:00 AM
Check-in, coffee and bagels

8:00 AM – 1:00 PM
Presentation & hands-on demo, with
lunch at 11:30 AM

Differentiate Yourself with Our Waterproof Coatings.

Let us show you how to increase profits with polyurethane waterproof coatings that can be applied over most existing materials and surfaces by roller, squeegee or sprayer. No hot kettles of asphalt and no fumes. Most importantly, no seams! As an added bonus, one of our solvent-free polyurethanes, LM60, carries the NSF International approval for potable water; water runoff from the roof is safe for people, pets, wildlife and plants. Gain an advantage over your competition and increase your bottom line!

This interactive one-day event is intended for experienced waterproofing applicators who are interested in learning more about Gaco's polyurethane waterproof products.

- Learn the advantages of industry best waterproofing products **GacoPedestrianDeck**, **GacoAutoDeck**, **GacoQRSDeck**, **GacoFlex U61**, **GacoFlex U91** and **GacoFlex LM60**.
- Gain hands-on experience and proper application to help ensure customer satisfaction.

This event will provide the participant a basic understanding of Gaco's application guidelines with both presentation and hands on demonstration.

Upon completion of the program, participants will receive a GacoU Certificate of Attendance.
